24 Month IRA RR	\$1,000.00	2.67%	2.70%

1. Interest will be compounded monthly and will be credited to the account monthly. We use the daily balance method to calculate the interest on the account. This method applies a daily periodic rate to the principal in the account each day. Fees may reduce earnings. The Rate and APY may change. At our discretion, we may change the rate on the account daily after opened. Interest begins to accrue on the business day you deposit noncash items such as checks.

2. The Rate and APY will depend upon the daily balance in the account shown on the rate chart.

3. A penalty may be assessed for early withdrawals.
